# laSoft

Ui/Ux designer

I was focusing on enhancing the user experience of various products. My main responsibilities included designing Web and Mobile interfaces, developing responsive design.

#### **KEY RESPONSIBILITIES**

- Interview
- Personas
- CJM
- Information architecture
- User Flows
- Wireframing
- Interactive Prototypes
- Design system
- Visual Design
- Graphic Design

#### **PROJECTS**

- Protogetic
- Travel Visa Pro
- One Click Code
- SEP
- Estimator
- Kamsa

## **CHALLENGES**

One of the main challenges I faced in my role at LaSoft was integrating into the team. The company had a well-established team of designers, and I needed to quickly learn the company's design processes and adapt to their workflow. Additionally, I was responsible for managing a large number of projects simultaneously, which required excellent time management and prioritization skills.

### **ACHIEVEMENTS**

- Successfully completed all internal and commercial projects with positive feedback from clients and users.
- Recognized for attention to detail and creating user-centered designs.
- Improved communication skills through collaborative work with other designers, developers, and project managers.

# Ui/Ux designer

My primary focus was on creating the UI for the product.

**KEY RESPONSIBILITIES** UI design of the football analytics portal

- Collaboration with a team of PM, BA, and developers to create an efficient and user-
- friendly design. Conducted user research and incorporated feedback to improve the UI design.
- **CHALLENGES** Worked on a tight timeline, requiring quick

# turnaround times and efficient

- communication with the team. Adapted to the design needs of the specific project and incorporated feedback from
- multiple stakeholders. **ACHIEVEMENTS** Successfully designed the UI for the

- football analytics portal, meeting the needs of the users and stakeholders. Collaborated effectively with the team to
  - ensure an efficient and streamlined design process.

design and enhance the user experience.

Incorporated user feedback to improve the
